

THE FUTURE IS NOW: IMPLEMENTING ONLINE INTERPROFESSIONAL COLLABORATION AMONG ORGANIZATIONS AND FAMILIES

Natasha Poushinsky & Dean Henderson

Objectives:

- ◆ To profile Careteam- an integrated patient centred online platform that brings staff across organizations together with families and patients to operationalize care plans across the continuum, and to empower families and patients in managing their healthcare.
- ◆ To identify the opportunities for efficiencies, better practice, warm handoff of care, and improved cross organization partnerships.
- ◆ To share lessons learned around key enablers for success.
